## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 24-28 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,810,528 to Chatani.

As concerns claims 24, 25 and 28, means for processing movement data (120); means for receiving the performance information file (124); means for composing the performance (138); program display means for displaying (80); wherein the performance information file includes the sequence information that constitutes the performance and the flag information that defines movements or expressions of characters that appear in the sequence information (138).

As concerns claim 26, the entertainment system is adapted to transmit contributed texts of users to the server (140, the term "adapted to" is not a positive limitation and only requires the capability of performing the function).

As concerns claim 27, displaying the series of performances after the reception of the performance information file is completed (inherent that data cannot be displayed until after it has been received and processed).

***Response to Arguments***

3. Applicant's arguments filed January 31, 2007 have been fully considered but they are not persuasive.

The applicant argues Chatani '528 does not disclose a means for composing the performance as claimed. The examiner disagrees since the image processing unit 138 is equivalent to a means for composing a performance since it processes the data, thus composing the performance of image data. Furthermore the applicant has not indicated if they intend to invoke USC 112, sixth paragraph and if so where in the specification the disclosed equivalents are specified.

The applicant argues Chatani '528 does not disclose the movement data includes different data corresponding to flag information. The examiner disagrees since data is a broad term wherein it is just a series of bits. The use of "movement" data is just a label. Also the limitation of "different" data is a relative term, wherein the claim does not establish a frame of reference of how or in what way is it "different".

***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B. Walsh whose telephone number is 571-272-7063. The examiner can normally be reached on Monday-Thursday from 7:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zarni Maung can be reached on 571-272-3939. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
